Career Objective

A Full Stack Developer, former trainee at Orange Coding Academy. Proficient in Laravel, PHP, MySQL, HTML, CSS, JavaScript, React.js, Bootstrap, and WordPress. During my training, I developed multiple projects using modern technologies, enhancing my problem-solving skills. I am adaptable, a team player, and seeking a Full Stack Developer role to further develop my skills and contribute innovative solutions.

Core Competencies

- Full Stack Development (Laravel, PHP, MySQL, JavaScript)
- Requirement Analysis & Process Optimization
- Problem-Solving & Critical Thinking
- Project & Time Management
- Data Analysis & Performance Evaluation
- Creativity & Innovation in Software Development
- Effective Communication & Team Collaboration
- Attention to Detail & Customer-Centric Approach

Technical Skills

- Languages: Laravel, PHP, JavaScript, HTML, CSS, React.js
- Databases: MySQL, SQL Server
- Development Methodologies: Agile, Scrum, SDLC
- Version Control: Git, GitHub
- Tools: MS Office Suite (Word, Excel, PowerPoint)
- Fast learner with the ability to adapt to any new technology or task quickly
- Passionate about learning new skills that contribute positively to the work environment

Education

BSc of Computer Science - Amman Al-Ahliyya University (Graduated in 2024)

Work Experience

Orange Coding Academy - Balqa, Jordan | Dec 2024 - May 2025

Intern, Full Stack Development

- Assisted in developing and maintaining web applications, front-end and back-end.
- Contributed to database management and performance optimization.
- Supported scalable software deployment and integration.
- Developed with Laravel, PHP, JavaScript, MySQL, Bootstrap, and React.js.
- Collaborated on issue resolution and participated in code reviews.
- Followed Agile methodology and Git-based version control.
